

QUITE POSSIBLY THE QUINTESSENTIAL AMERICAN MEAL.

With nearly a dozen locations around town, The Loop is a familiar name. Generally known for making a pretty good pizza, the grill serves up a mean order of **ONION RINGS**, too. Crisp and not too greasy, they are poster children for what an onion ring should be. \$5.24. • Though it seems like you can get a **BURGER** just about anywhere these days, you've never had one quite like Five Guys'. The DC-born franchise serves juicy burgers, cooked to perfection—as you like it, with a wide array of toppings from which to choose. \$3.42 for a little burger. • For those health-conscious diners who go weak at the knees at the sight of a big, juicy burger, San Marco Deli's eight-ounce **TURKEY BURGER** is the king of local guilt-free splurges. \$7. • A Jax Beach mainstay, Cruiser's Grill is the go-to place for beach-dwellers wanting classic American fare. But it's not just the burgers and fries that bring in the crowds—diners also go ga-ga for the **CHICKEN CHUNKS**, tender, juicy and, quite simply, a taste of heaven. \$6. • Whether you've just enjoyed a burger or just want a sweet treat, the **HAND-DIPPED MILKSHAKES** at Ellen's Kitchen are not to be missed. These super thick shakes come in five flavors: banana, strawberry, vanilla, chocolate and blueberry. \$3.55. • In the last few years, gourmet **CHICKEN WINGS** have become the "it" dish, and they have never been bigger than they are at the Hurricane Grill, which has a selection of more than 35 flavors that fall under one of five "categories" of hotness. \$7.50 for 10. • At Mossfire Grill, be sure to put an order in for the **TEXAS PETE CHEESE FRIES**, tossed in Texas Pete and smothered in ooey-goey cheese. \$6. • Upon first glance, Sun Dog looks like a classic diner, but look closer, and you will see a mix of old-school charm and new-school beach casual. Music is an essential part of the equation. But here live nightly music has replaced the jukebox. Try the signature **RED HOT DOG**, served with fries, chips or slaw. \$7.
